FOR MISSING & EXPLOITED CHILDREN

Children in the Digital Age

The Challenge

How do protect children from online sexual exploitation?

How do we prevent Victimization

How do we prevent the use of technology by sexual predators with the intention of abusing children?

Online Child Sexual Abuse & Exploitation

**750,000 pedophiles
are online at any given moment.**

(Report of the UN Special Rapporteur on the sale of children, child prostitution and child pornography (2009))

"For most of these kids, it didn't even seem like a big deal to do something they did, something they thought everybody did," Hook said.

When the investigation was over, Oneida County officials decided. Instead, students and parents attended informational sessions to prevent behavior from happening again.

Praveen Kharb, 38, of Gurgaon, India, appears at his arraignment. (Photo: KHOU 11 News)

"We could have kept on investigating. We could have, I'm sure Hook said. "We stopped, because what was really clear to us was the problem."

The situation in Rhinelander is not uncommon in Wisconsin.

Google Spotted Explicit Images Of A Child In A Man's Email And Tipped Off The Authorities

Child Sexual Abuse Imagery Trafficking

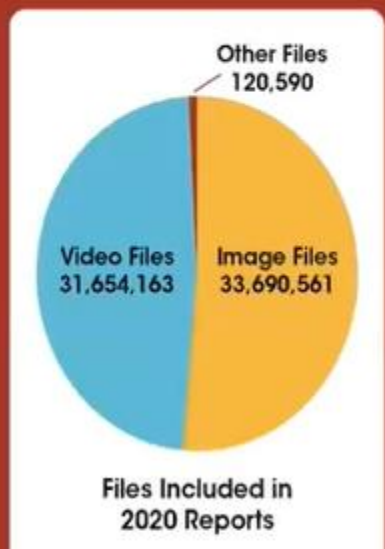

Online Child Sexual Exploitation is Not Victimless Crime

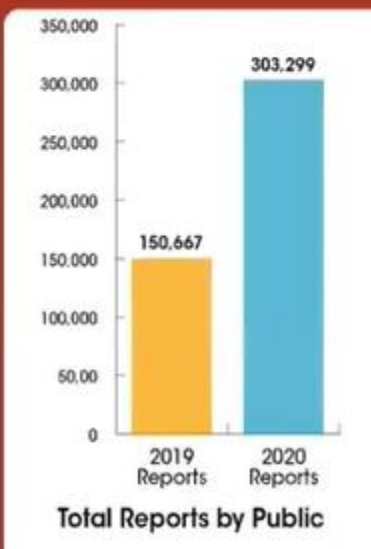

- These are violent crimes involving real children
- These children are re-victimized every time the image of their abuse is viewed/distributed
- The USDOJ and UNODC recognize OCSE as a modality of child sex trafficking

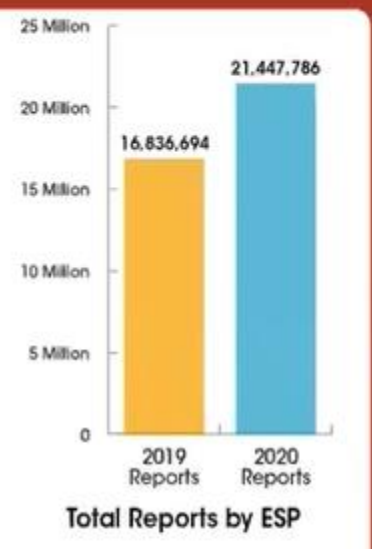

In 2020, reports to the CyberTipline increased by 28% from 2019.

The 21.7 million reports of child sexual exploitation made to the CyberTipline in 2020 included 65.4 million images, videos and other files. These materials contained suspected child sexual abuse material (CSAM) and other incident related content.

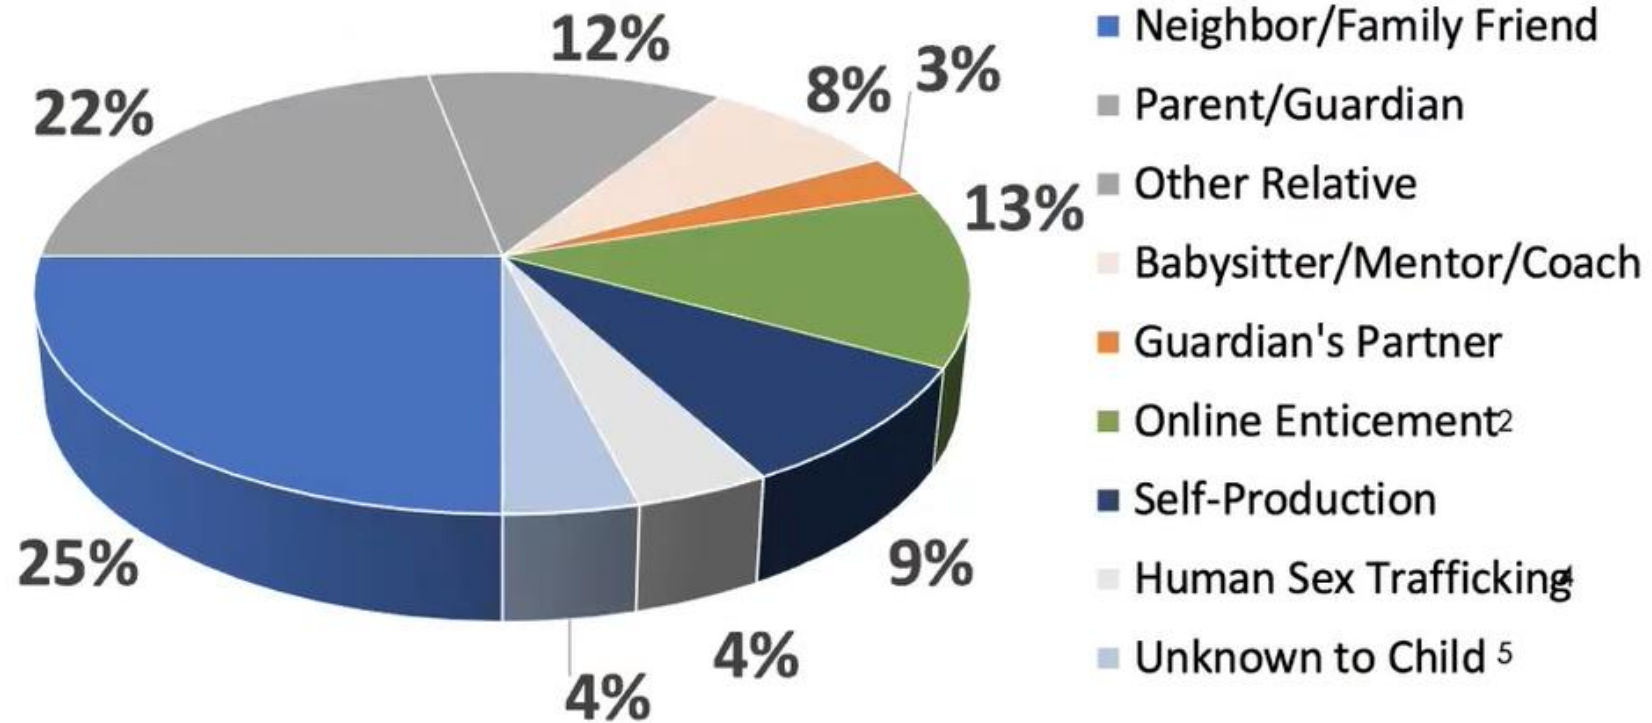

Electronic Service Providers make the majority of reports, but reports of online sexual exploitation from the public more than doubled in 2020.

Electronic Service Providers make the majority of reports, but reports of online sexual exploitation from the public more than doubled in 2020.

WHO ARE THE OFFENDERS?

1. Data based upon information submitted to NCMEC by law enforcement as of July 17, 2019. Actively Traded series only.
2. "Online Enticement" includes either (1) victims who met a perpetrator online and transmitted self-produced images or (2) victims and offenders who met online and then met offline, producing images.
3. "Self-produced" includes those victims who have produced and distributed images of themselves.
4. "Human Trafficker" includes victims of commercial sex trafficking.
5. "Unknown to Child" includes un-established relationships, i.e. photographers, runaways, etc.

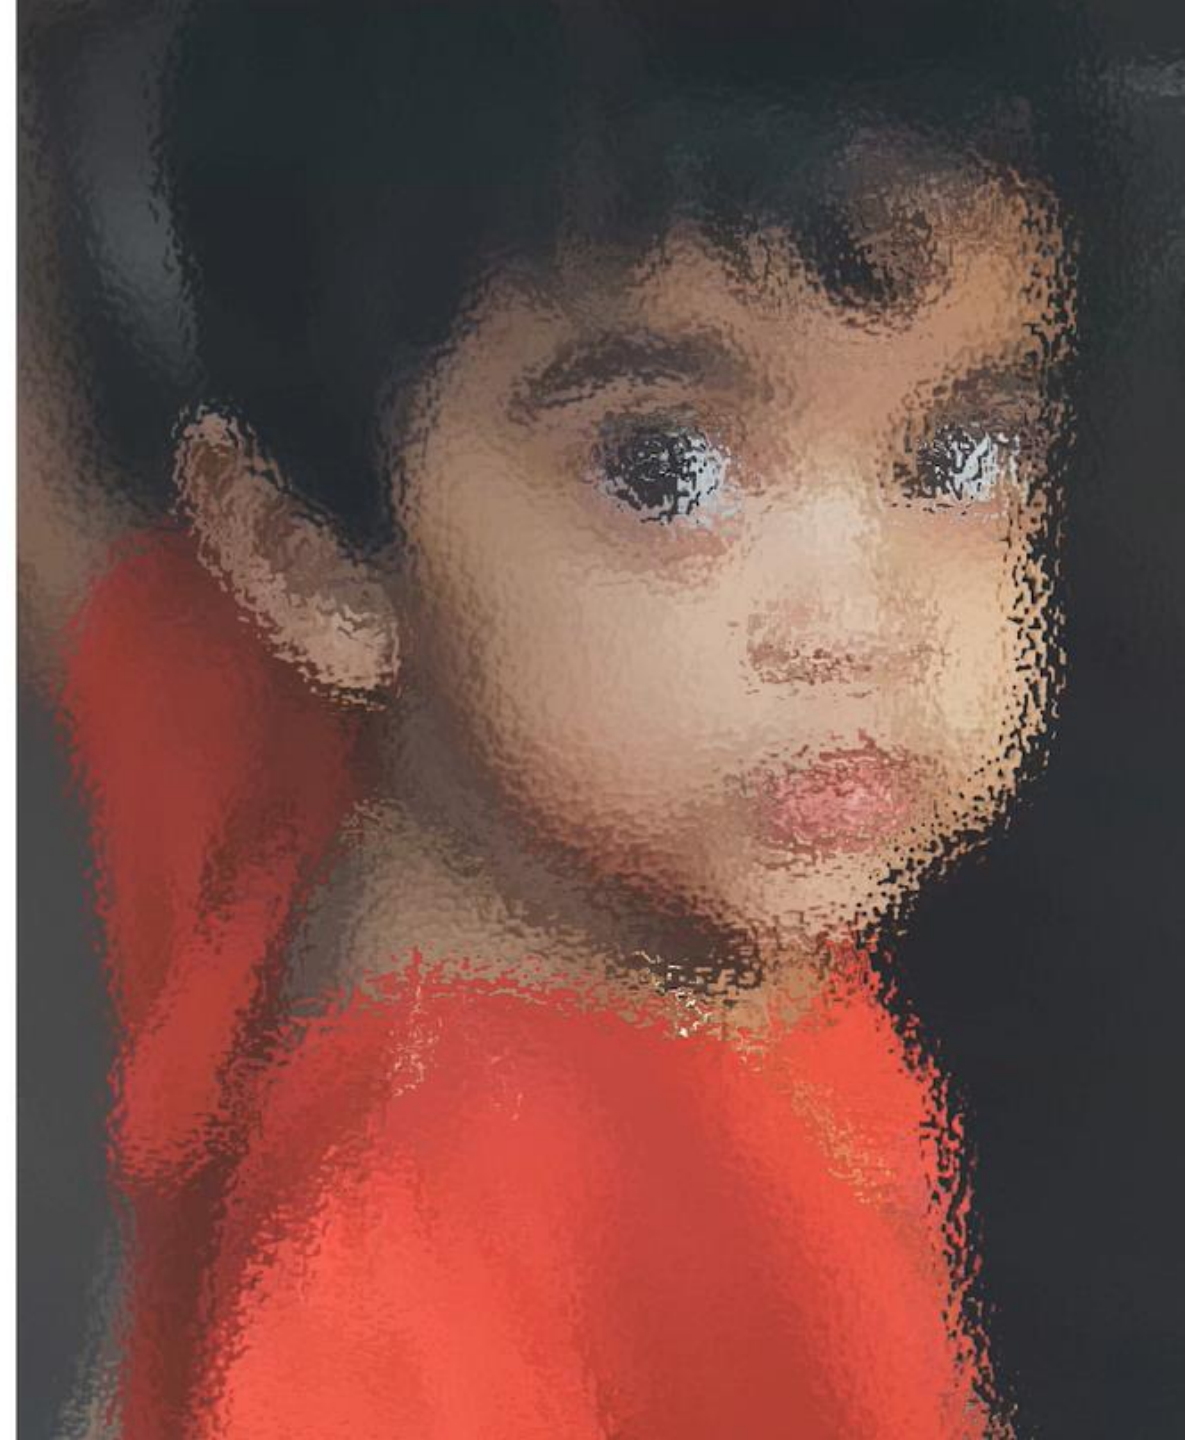

BOTNER study

- 83% had images of children 6-12 YOA
- 39 % had images of children 3-5 YOA
- 19% had images of infants and toddlers under the age of 3
- 92% had images of minor's genitals showing explicit sexual activity
- 80% had images showing sexual penetration of a child
- 21% had child child pornography depicting violence such as rape, bondage and torture

- 40% of the arrested- dual offenders

Capacity Building

- National Strategy Plans
- Protection frameworks
- Training and Education Programs (Criminal Justice, judges, first responders, prosecutors)
- Public Awareness Campaigns
- Corporate Social Responsibility
- Research and Data Collection

ICMEC's MRC Assessment

A tool designed to identify gaps in legislation and national response programs:

Our Coalitions

Powerful alliance of financial and Internet companies working voluntarily to address commercial child sexual abuse materials and exploitation

- U.S. Financial Coalition established by ICMEC and NCMEC in 2006
- Asia-Pacific Financial Coalition launched by ICMEC in 2009
- Tech Coalition formed in 2006
- Gaming Workshop started in 2020

Thank you!
